CSE Project

LOVELY PROFESSIONAL UNIVERSITY

Project Title:
News channel website

(Final Project Report of CSE 326 Project)

Section: K22GP

Submitted To: Nausheen Fatima

D.O.S: 30th November 2022

Group Members:

Name	Roll no.	Registration No.
M. Lohith Reddy	34	12216611
Adharsh Nayak	20	12206800
Raj Kunwar Pandey	8	12203953

ACKNOWLEDGEMENT

We would like to express our Special thanks of Gratitude to our University as well as our CSE Faculty **Nausheen Fatima** ma'am who gave us this opportunity to work on the project to "**Design a Website of News channel website"** which Also helped us in learning and developing skill in HTML,CSS and Java Script.

Finally, I would like to thank my friends who helped me a lot in finishing this topic within a limited time.

Thanks to All!

Final Project Report On

News Channel Website

Introduction

Overview About the Agency:

Ministry of Information and Broadcasting (Ministry of I&B) is a ministerial level agency of the Government of India responsible for the formulation and administration of rules, regulations and laws in the areas of information, broadcasting, the press and the Cinema of India.

The Ministry is responsible for the administration of Prasar Bharati, the broadcasting arm of the Indian Government. The Central Board of Film Certification is the other important statutory body under this ministry being responsible for the regulation of motion pictures broadcast in India.

About Our Project:

The “News Channel Website” has been developed to override the problems prevailing all around the world. The website is supported tob bring you the latest news and make you educated about what is happening around you. Moreover, this system is designed for the particular need of the agency to carry out operations in a smooth and effective manner. No formal knowledge is required for user to access this webpage. Thus, by this all it proves it is user friendly and fast management system, as described above, can lead to error free, secure, reliable and effective management system. It can assist the user to concentrate on record keeping. Thus, it will help organization in better utilization of resources.

The purpose of News channel Website is to automate News which help in mass education and information, providing the latest news and current events around the world. Before digital resolution, we need to wait for long hours to know what’s happening around the world. Later comes the television, but people might not always be in front of the TV. Then comes the digital world that has speeded up everything.

Describing HTML Code of Our Website:

The website consists the logo of Income Tax Department of India at the top left corner at the navigation panel. In the navigation panel we have 5 elements Home, Economy, Sports, International, Contact us.

We started building this website by firstly creating our index page by naming it as index.html, we also created a .css file for styling our index page and that css file is linked to the index tag using <link> tag. All the styling for the index page has been done on the CSS file.

We have created this navigation bar by creating an unordered list and then styling them using CSS. Firstly, I have taken a <nav> tag given it a class= "header". Then I have taken a tag with class= "nav-links" then we have inserted the logo using <img> tag . Then we have created the navigation bar elements. The navigation elements can be accessed by clicking on them: Economy, Sports, International, Contact us are linked externally. We code those html pages and we have used internal CSS for them. Coming to our index page, so after the navigation bar we have added a background image which represents our theme and add a button with the text "visit us to know more". We have also used some colour changing text effects to highlight the texts.

After the Home page we have four different sections Economy, Sports, International, Contact us. Economy section navigates you to another page where you can see the news related to our world economy. After the economy section we have also provided the sports section for knowing the latest sports news happing of different categories of sports.

Then beside Sports section there we have International section that will provide the daily updates regarding different news across the world and related issues. Then to the right of International

section we have Contact us section: in which we have provided Google map of our address and also a Feedback Form and Profile.

Functionalities provided By News channel website as follows:

- Provides Recent News and updates happing around the world and related topics.
- It tracks all the latest news and will make sure that you come across everything that is happing around you.
- Provides the facility to leave a comment if you face any issues.
- Provides the facility to send a message if you want to convey something to us directly.
- Provides the facility to now our office location using google maps.
- Provides the facility to contact us to various social media apps like Instagram, Facebook, LinkedIn, Twitter, WhatsApp by clicking the icons in the footer section.

Our Top Reviews
Talking about the content and quality, there is no newspaper which has this abundant excellence in sensationalizing the news-matter. The reporting style of GN News is very catchy, spicy and at times, even beats the leading tabloid in its very presentation.
Christine purus
By any extent of imagination, it would be hard for me to term it as a newschannel website worth reading; I mean to say it always appear biased in its reporting. If you want to know more about your city in terms of restaurants, party bars and stuff, this is the newschannel website you have to read.

Why for almost four years Delhi's Jawaharlal Nehru Stadium hasn't hosted any track-and-field event
FOR almost four years now, the iconic Jawaharlal Nehru Stadium here — listed as one of India's five Class 1 facilities by World Athletics — hasn't hosted any track-and-field event. The reason: "sinking" of the ground after a botched-up track relaying project. The project, for which the Sports Authority of India (SAI) had earmarked Rs 6.50 crore, began in the summer of 2019 and was expected to be completed by 2021.

Senegal emerge as story of the World Cup, making knockouts after 20 years on back of Koulibaly winner
It was the first time Ecuador faced an African nation at a FIFA World Cup finals on Tuesday. And it was baptism by fire for them at the Khalifa International Stadium. With the Netherlands winning their match against hosts Qatar 2-0, Ecuador needed just a draw to qualify for the knockouts. But they got a taste of the famed 'African footballing heart' as they succumbed to a 2-1 loss to Senegal thereby being knocked out of the tournament.

Felix Auger-Aliassime, Denis Shapovalov give Canada 1st Davis Cup title
Canada won its first Davis Cup title on Sunday, beating Australia behind victories from Denis Shapovalov and Felix Auger-Aliassime. Auger-Aliassime secured the winning point when he downed Alex de Minaur 6-3, 6-4 after Shapovalov opened the day by rolling past Thanasi Kokkinakis 6-2, 6-4. Seven years after leading Canada to the top of junior tennis, Auger-Aliassime, Shapovalov and their teammates finally got to lift the top team trophy in their sport.

US dismisses China objections to South China Sea mission
BEIJING: The US Navy on Tuesday dismissed Beijing's protests over a "freedom of navigation operation" conducted near a Chinese-held island in the South China Sea, in the latest incident drawing new attention to one of the world's potential military flashpoints. In an unusual move, the Navy's 7th Fleet issued a rebuttal to China's objections to Tuesday's mission, calling it "the latest in a long string of (Chinese) actions to misrepresent lawful US maritime operations and assert its excessive and illegitimate maritime claims" in the South China Sea. China claims the area virtually in its entirety.

Hawaii's Mauna Loa: What hazards are posed by the world's largest active volcano?
HONOLULU: Lava is shooting 100 feet to 200 feet (30 to 60 meters) into the air as Hawaii's Mauna Loa,the world's largest active volcano, erupts for the first time in nearly 40 years.For now,lava is not threatening any homes or communities and no evacuation orders have been issued. Lava could eventually reach neighborhoods as it flows downhill though it could take a week or more for molten rock to reach populated areas. Mauna Loa is spewing sulfur dioxide and other volcanic gases.
